to carry a 1L or 2L bottle.

The series of MSP portable systems are used in spot odor elimination in hospitals, hotels, and industries using specifically formulated *airSolution*. The MSP systems can eliminate malodors of:

- Smoke and body odors in hotel rooms
- Cooking odors
- Animal odors
- Washroom odors
- Garbage odors
- Other malodors of organic base

The cycle timer allows for programming the length of spray duration and the interval between sprays.
