School Lockers

Tenant Lockers

**Trash Compactors** -To compliment our line of trash chutes, **CHUTES INTERNATIONAL™** makes available to you only the most dependable, most durable trash compactors on the market today. Whether you have a need for a vertical or horizontal configuration, or an indoor or weatherproof application, **CHUTES INTERNATIONAL™** has the right equipment to meet your specifications. We can also help you develop those specifications through our expertise in the industry. All our compactors are UL approved and comply with all applicable ANSI standards. Containers to use with these compactors are also available and can be custom ordered to your specifications.

Compactor

The purchase of our compactor systems is supported with an expert service organization and is backed by the manufacturers' warranties. **CHUTES INTERNATIONAL™** makes your choices easy and keeps your comfort level high. **Do not hesitate to call us for our expert advice.** We would be pleased to help you plan and make your compactor and accessories selection.

**Chute Maintenance** - Our chute maintenance service helps to maintain a pleasant atmosphere that is so important to **retaining your present tenants** and making your facility **attractive to prospective tenants.**

**Routine chute maintenance** sanitizes and deodorizes your trash chutes. This helps to drastically reduce pest control problem. Potential fire hazards are also reduced significantly. Again, **CHUTES INTERNATIONAL™** makes it easy for you to choose. We offer replacement parts and annual service and cleaning agreements.

At **CHUTES INTERNATIONAL™**, we will do "whatever it takes" to ensure that you are completely satisfied. **Your satisfaction is guaranteed.** This, coupled with our very competitive rates, assures you of only the best solutions for your facilities and your customers.

**Tenant Storage Lockers** - **CHUTES INTERNATIONAL™** provides a full line of single and double tier storage lockers, both custom-made and prefabricated. Our storage lockers are fabricated to meet all NFPA requirements. So rest easy when you choose **CHUTES INTERNATIONAL™** because we meet and exceed the standards that others find to be a hindrance.

Our **custom-made tenant storage lockers** are custom-welded on the job site to ensure a great fit. Made of 1" x 1" x 1/8" steel angle and 1-1/2" #16 gauge expanded metal, each door is equipped with two hinges, 2-1/4" x 3-1/2", two positive stops and a durable padlock hasp. Optional tops and shelves are available and are produced from the same durable material as the locker itself.

The **finest manufacturers** in the industry make our **prefabricated lockers** for schools, health clubs, swimming pools, locker rooms and a whole host of other placements today. They come with custom-painted exteriors to match the surrounding décor and can be custom-finished to increase durability and decrease marring.
